PACKAGING INNOVATIONS

Patented Twist-To-Mix Lip Gloss Packaging

PACKAGING INNOVATIONS

Patented Twist-To-Mix Lip Gloss Packaging

- ◆ Say goodbye to separated pigments and uneven color. This innovative lip gloss packaging is designed for lip gloss, shimmer lip glaze, and mirror lip mousse formulas, ensuring vibrant and consistent color performance with every application.
- ◆ Simply twist the bottom to activate the mixing mechanism. The settled pigments are evenly blended before use, creating a smooth, lightweight, and non-sticky glossy finish that stays comfortable without sticking to hair or leaving marks on cups.
- ◆ Accelerated twist mechanism for effortless use. One full rotation of the bottom creates five rotations of the inner mixing system, providing a unique and user-friendly experience for consumers.

◆ Patented Innovative Structure

Key Features

- ✓Prevents pigment separation before use
- ✓Provides consistent color payoff every time
- ✓Enhances consumer interaction through innovative packaging design
- ✓Suitable for various lip gloss and high-shine formulas

Capacity: 3.5ml
